

STUDENT AGREEMENT TO PARTICIPATE

We, the parents of _____ of _____ school, hereby request our daughter to be allowed to participate on the boy's _____ team. We make this request because there is no girl's team available in our school. We realize that there are physical differences between boys and girls, and that these differences are based on age and strength. We realize that as a result of these differences, our daughter may have to change in facilities which are not as up to par as the boy's room, or she may have to change in washrooms. We also accept the fact that there are strength differences between boys and girls and we have discussed this fact with our daughter and are prepared to accept any incidental consequences. We are prepared to accept that incidental contact can occur and that other injuries, based on gender differences could occur.

We accept all of this and still wish our daughter to participate on a boy's team. We agree that should anything happen we will release from liability and hold blameless and harmless _____ school, the coach, the conference she participates in, the competing school, School Division or the Manitoba High Schools Athletic Association, Sport Manitoba, Manitoba Education, or any other Association related to high school athletics, and/or education.
